Daiva Fauzani

Data Analyst Intern Candidate

Semarang, Central Java · daiva.fzn@gmail.com · linkedin.com/in/daivafauzani · github.com/daivafzn-sketch

SUMMARY

Information Systems student at Universitas Dian Nuswantoro with a Diploma III in Accounting from Politeknik Negeri Semarang. Experienced with financial administration and data that has to be accurate, now focused on data analysis: cleaning data with Python, querying with SQL, and turning findings into dashboards and business recommendations.

PROJECTS

Bike Sharing Demand Analysis Oct 2026

Python, pandas, matplotlib, Streamlit · Dicoding "Belajar Fundamental Analisis Data" final project

- Analyzed 731 daily and 17,379 hourly rental records (2011–2012) on peak demand hours and weather impact; built an interactive Streamlit dashboard with Year, Season, and Weather filters.
- Excluded 76 days with incomplete hourly records to keep hourly averages unbiased; binned temperature into 4 groups.
- Found working-day demand peaks at 17:00 (~560 rentals/hour) vs 13:00 on weekends, and 63% lower demand in rain/snow; recommended fleet scheduling by day type and weather.

E-Commerce Sales & Customer Satisfaction Analysis Oct 2026

Python, pandas · Olist Brazilian E-Commerce public dataset

- Joined 7 tables covering 96,203 delivered orders (2017–2018); cleaned duplicate reviews, incomplete months, and missing delivery dates.
- Found that late deliveries (6.8% of orders) drop average review scores from 4.29★ to 2.27★ and account for ~33% of all 1–2★ reviews; the top 10 of 71 categories make up 62% of revenue.

Inventory Information System for Sales & Purchases (Publication)

Microsoft Excel, Visual Basic for Applications · Pandan Arum Plant Shop

- Designed and built an Excel VBA-based system to record sales, purchases, and stock levels for a small business.

EXPERIENCE

Member, Data Division Oct 2025 – Present

Dinus Open-source Community (DOSCOM), Semarang

- Takes part in the community's data-driven initiatives and learning activities.

Core Team Oct 2025 – Present

Google Developer Group on Campus, Universitas Dian Nuswantoro

- Helps organize technology events and programs for the campus developer community.

Finance Administration (Internship) Jun 2025 – Jul 2025

Dinas Komunikasi, Informatika, Statistik dan Persandian Kota Semarang

- Handled financial administration and reporting for the finance division.

Purchasing & Receiving (Internship) Mar 2025 – Jun 2025

Hotel Tentrem Semarang

- Supported purchasing and receiving administration and related reporting.

EDUCATION

Universitas Dian Nuswantoro Sep 2025 – Dec 2027 (expected)

Bachelor's degree, Information Systems

Politeknik Negeri Semarang Sep 2022 – Sep 2025

Diploma III, Accounting

SKILLS

Data analysis	Python (pandas, matplotlib), SQL, Microsoft Excel (incl. VBA), Jupyter Notebook, Power BI/Tableau
Visualization	Streamlit dashboards, matplotlib charts
Domain	Accounting, financial reporting, taxation (Brevet A & B)
Language	Indonesian (native), English (TOEIC certified)

CERTIFICATIONS

- Belajar Fundamental Analisis Data – Dicoding (2026)
- Data Analytics Certificate – RevoU (2025)
- Belajar Dasar SQL – Dicoding (2026)
- Memulai Pemrograman dengan Python – Dicoding (2026)
- Belajar Dasar Data Science – Dicoding (2026)
- Machine Learning untuk Pemula – Dicoding (2026)
- Teknisi Akuntansi Pratama – BNSP (2024)
- Brevet Pajak A & B – Tax Center Polines (2024)
